To Whom It May Concern:

I have known Brent Bressler since the early 1980's. Since that time Brent has provided my businesses with excellent support and professional advice. Brent has always conducted himself in a professional manner and I have found him easy to work with. He has always displayed excellent follow through and returns phone calls almost immediately. Unlike so many business people today, I never feel that I have to "track him down" to get answers or advice.

Brent has shown concern for all of my business needs but the most important aspect of working with him is that **he gets results**. Recently, I contracted Bressler Ventures to conduct a mailing with the intent of purchasing a new company so I can expand into a new service for my clients and capture a segment of the market that I have not yet tapped. Within the past week I have heard from three interested parties. Two of which are well-known, prestigious, Wichita companies and a third is an up-and-coming business that fits the exact profile of what I've been looking for. I am currently in negotiations with all three companies, and with Bressler Ventures help, I hope to finalize a deal with one of them within 30 days. This is just the latest example of the many benefits I've received over the years from having a relationship with Brent.

I can confidently recommend Bressler Ventures LP as a solid and reliable company. When I have an opportunity to work with Brent I do not hesitate. I would be happy to provide further information regarding my experiences with Brent and his Company if required.

Sincerely,
